

Developing a Plan for a Memorial to Honor Women's Suffrage in Utah

Name: _____ Period _____ Date _____

Background and Task: Memorials are created to commemorate and honor important figures and events in history. Currently there are few memorials depicting the individuals and events involved in the struggle for women's suffrage in Utah. Your task is to develop a plan to submit to a mock committee that wants to erect a memorial honoring the history of women's suffrage in Utah.

*Please note that the focus of this task is the thinking that goes into the planning of the memorial rather than who creates the best-looking memorial.

Questions to Consider When Planning Your Memorial:

- What strikes you as most important or memorable from the history of women's suffrage in Utah?
- What message about this history do you want to convey to viewers of your memorial?
- What individuals or events do you think would best convey the history of women's suffrage in Utah to other people?
- How will this memorial look? What people, events, and symbols do you envision being depicted in this memorial? Will you have statues? Artwork? Quotations?
- What feelings and emotions do you want this memorial to provoke in people?
- What will be the size of this memorial?
- What will the plaque on this memorial say? What important details need to be included?
- Where will be this memorial be located? Why this location?

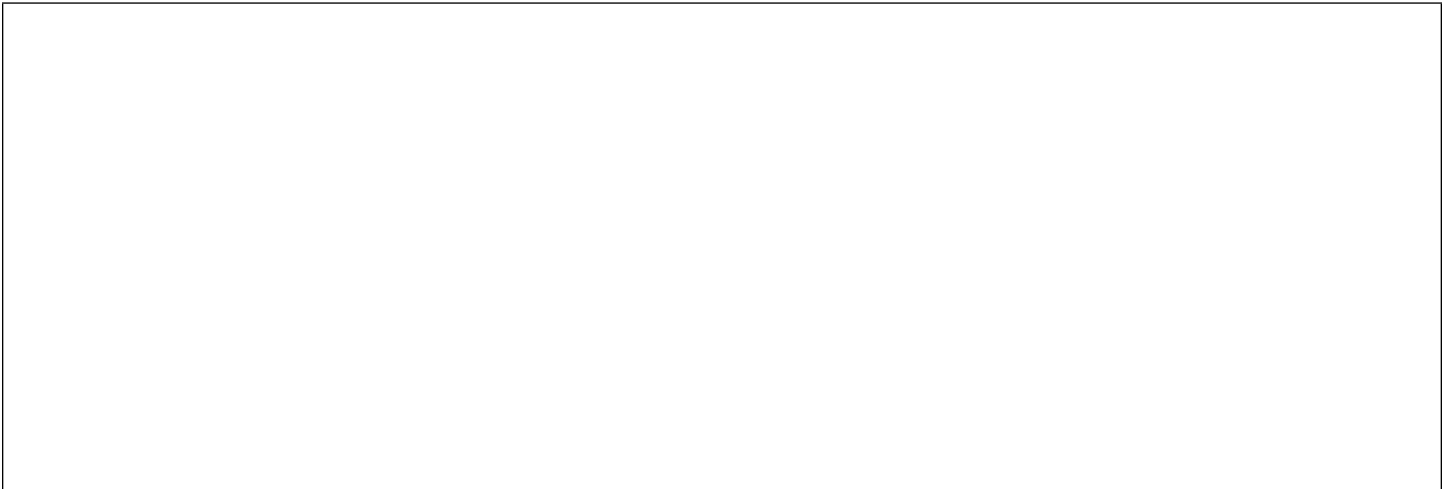

Brainstorm your ideas here:

Developing a Plan for a Memorial to Honor Women’s Suffrage in Utah

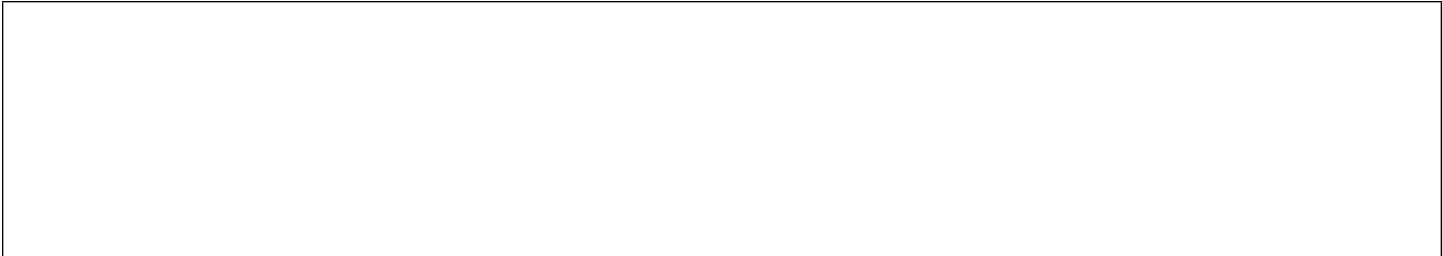

Sketch of the proposed memorial:

Brief description of the proposed memorial (who/what, symbols, size, style, other characteristics) and reason(s) for this design:

Reason(s) why this proposed memorial is needed/important:
